

WORKSHOP SCHEDULE

The Town of Pinedale Planning & Zoning Commission will be hosting a series of workshops as part of the zoning and land development ordinance update. The workshops will tentatively be held on the **third** Monday of each month, unless time permits them to be held on first Monday. The workshops will include a presentation and allow public comment on the chosen topic. The object of the workshop is to allow for discussion of issues and collect public comment on whether a new ordinance or a revision to the existing ordinance is required. Should public comment and discussion reveal a revision or new ordinance is required, it will be introduced and advertised at a later date.
